

# CPP

## Portable Motor

The light weight, 10lbs., Robust CCP has a 440 lbs. weight capacity, backed by a solid 5-year warranty. Its intuitive design and cutting-edge electronics place it at the top of its class.

### **Unique Hanger Bar Design**

#### **Clearance**

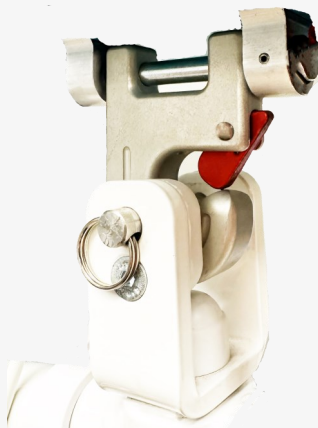

The hanger bar is positioned beneath the lift, providing increased clearance between users and the lift.

#### **Quick Release**

The hanger bar features a convenient quick-release mechanism for easy movement and storage.

#### **Swivel Connection**

The hanger bar is designed to swivel in the direction of the pull, not the lift, preventing any binding of the lifting strap.

#### **Dual Controls**

Up, down, and emergency lowering functions are available on both the handset and lift unit.

#### **Superior Charging System**

High battery capacity supporting 50-60 lifts per charge with a auto power-off after approximately 30 seconds of non-use.
